PROFESSIONAL SUMMARY

WordPress developer with 7+ years of experience building and maintaining responsive websites, converting Figma and PSD designs into WordPress sites, and developing custom functionality. Experienced with PHP, JavaScript, ACF, Gutenberg blocks, Beaver Builder modules, website integrations, troubleshooting, maintenance and performance improvements.

TECHNICAL SKILLS

WordPress: Custom development, ACF, Gutenberg, Beaver Builder, WooCommerce, theme customisation
Frontend and backend: PHP, JavaScript, HTML5, CSS3, SCSS, jQuery, responsive web design, Git
Tools and integrations: Figma, WPForms, Formidable Forms, Zapier, GTmetrix, Semrush, Bootstrap, Foundation
Currently exploring: React, TypeScript, Node.js, PostgreSQL

PROFESSIONAL EXPERIENCE

WordPress Frontend Developer (Part-Time) | Jin & Co.

January 2023 – Present

- Develop responsive WordPress websites from Figma designs and collaborate with designers to implement layouts and functionality.
- Create custom fields and Gutenberg blocks, and integrate forms and email marketing workflows using WPForms, Formidable Forms and Zapier.
- Maintain existing websites, troubleshoot issues and support consistent display across devices.

WordPress Frontend Developer | Applyflow

October 2024 – August 2025

- Built WordPress websites from Figma designs and created reusable custom Beaver Builder modules.
- Worked with cross-functional teams to deliver responsive website features and layouts.

WordPress Frontend Developer | White Label Media

June 2018 – April 2023

- Developed WordPress websites from PSD designs and handled plugin updates, site maintenance and issue resolution.
- Used GTmetrix findings to improve website performance and addressed SEO issues identified in Semrush.
- Refined responsive layouts for desktop and mobile devices.

Website Backend Developer | JDEV

September 2017 – February 2018

- Supported backend functionality for web applications and collaborated on full-stack development projects.
- Tested and debugged functionality to improve application reliability.

EDUCATION

Bachelor of Science in Information System | City College of Angeles | June 2013 – April 2017
